Recommendation for article citation:

Author's name(s). Title of the paper. *International Journal on Information Technologies and Security*, vol. 16, no. x, 2024, pp. xx-xx. DOI: xxxxxxxxxxxx

Contents of the volume 17

Section “Information Technologies”

Program Technologies and Data Management

2025-01-01

O. Ja. Kravets, E. I. Mutina, O. Yu. Zaslavskaya, Yu. V. Redkin, P. A. Rahman, I. A. Aksenov, Kamil Wisam Abduladheem Kamil. Improving the efficiency of using the resources of virtual data centers with a heterogeneous structure by repositioning virtual machines. *International Journal on Information Technologies and Security*, vol. 17, no. 1, 2025, pp.3-12.

DOI: <https://doi.org/10.59035/MMYV5441>

2025-01-02

B. Ivanova, R. Bratanova. Limitation of black-market media influence through designing LLM tool for content analysis *International Journal on Information Technologies and Security*, vol. 17, no. 1, 2025, pp. 13-24.

DOI: <https://doi.org/10.59035/KDFD7294>

Technologies for Automation of Engineering and Research

2025-01-03

Pham Trung Kien. Development of AIOT-based health kiosks for patient classification in e-health. *International Journal on Information Technologies and Security*, vol. 17, no. 1, 2025, pp. 25-36. DOI: <https://doi.org/10.59035/GRRF3216>

2025-01-04

A. H. Hoti, X. Zenuni, J. Ajdari, F. Ismaili. Predictive modeling of student success using machine learning. *International Journal on Information Technologies and Security*, vol. 17, no. 1, 2025, pp. 37-46. DOI: <https://doi.org/10.59035/CPWK8549>

2025-01-05

Pl. Stanchev, G. Vacheva, D. Klimenta, N. Hinov. Machine generated tools for short-term forecasting of price of electrical energy. *International Journal on Information Technologies and Security*, vol. 17, no. 1, 2025, pp. 47-56.

DOI: <https://doi.org/10.59035/COTH5893>

Intelligent Systems and Knowledge-Based Technologies

2025-01-06

C. E. Nugraheni, L. Abednego, M. Widyarini. Whale optimization algorithm for production scheduling problems in small bakery enterprises. *International Journal on Information Technologies and Security*, vol. 17, no. 1, 2025, pp. 57-68.

DOI: <https://doi.org/10.59035/BSWR7756>

Section “Information Security”

Cryptographic Algorithms and Protocols

2025-01-07

A. S. Alshammari. DNA-based cryptosystem integrating Wichmann-Hill and mixed congruence algorithms for enhanced data security. *International Journal on Information Technologies and Security*, vol. 17, no. 1, 2025, pp. 69-78.

DOI: <https://doi.org/10.59035/GGHY6238>

Cyber Security & Cyber Safety

2025-01-08

S. N. Deshpande, D. V. Gore, A. S. Chavan, A. Nelli. MOD-XGBOOST: An adaptive machine learning model for Internet of Things environment to detect spoofing and DOS attacks. *International Journal on Information Technologies and Security*, vol. 17, no. 1, 2025, pp. 79-90. DOI: <https://doi.org/10.59035/MZGI5749>

Section "Security Policy"

Energy Security

2025-01-09

N. Baftiu, T. Atasanova-Pachemska. Application of algorithms for forecasting and optimizing the production capacity of wind energy. *International Journal on Information Technologies and Security*, vol. 17, no. 1, 2025, pp. 91-102.

DOI: <https://doi.org/10.59035/NDWZ2144>

2025-01-10

D. Maevsky, E. Maevskaya, V. Kryvda, D. Stetsiuk. Resource analysis of methods for assessing the dependability of power supply systems in conditions of negative impacts. *International Journal on Information Technologies and Security*, vol. 17, no. 1, 2025, pp. 103-112. DOI: <https://doi.org/10.59035/VHSS3812>

Disarmament, Arms Control and Risk Technologies

2025-01-11

B. Bankov, St. Bojilov. The role of dual-use technologies in hybrid warfare: A double-edged sword? *International Journal on Information Technologies and Security*, vol. 17, no. 1, 2025, pp.113-124. DOI: <https://doi.org/10.59035/ZCVQ3303>

International Terrorism

2025-01-12

K. Stoichev. New approach for enhancement of critical entities resilience against terrorist threats. *International Journal on Information Technologies and Security*, vol. 17, no. 1, 2025, pp. 125-136. DOI: <https://doi.org/10.59035/YISH1797>
